## FAQs

What are the key product identifier terms I need to know?

### MBID

The unique identifier Material Bank assigns to your company.

### MB SKU

The SKU Material Bank assigns each of your items.

### Manufacturer SKU

The SKU number you have assigned to each of your items.

# Client WMS Portal.

## How can I view my active SKUs?

Go to the “Master Data” tab and select “MB SKU” in the drop down. To view all active SKU’s, click “Search.” To search for a specific SKU, enter your manufacturer SKU number and then click “Search.”

## How can I view my active inventory stock levels?

Go to the “Inventory” tab and select “Inventory Summary” in the drop down. Use the filter fields to view a specific SKU.

## How can I view my low inventory stock levels?

Click on the “Alerts” tab. The information will be under “Inventory Alerts.”

## How do I change my password?

Go to “User Details” in the top right-hand corner, then click on the “Password” tab.
